

# PROFESSIONAL LEARNING DAY with Tania Lattanzio

## *What's Worth Learning?*

When we consider developing units of learning for students, what is important? Through this interactive day of professional learning, educators will examine the role of transdisciplinary learning and how to develop learning that focuses on understanding, transfer and active meaning making.

### *Educators will:*

- \* Examine what is worth learning
- \* Understand transdisciplinary learning
- \* Investigate the importance of concepts in transdisciplinary learning
- \* Understand how through conceptual learning we promote transfer of learning
- \* Examine a variety of ways to develop units that promote transdisciplinary learning
- \* Reflect on their own units and consider how they may be redeveloped to promote transdisciplinary learning and transfer
- \* Examine the role of deep learning and the importance of students as active meaning makers in their learning
- \* Investigate engagements that promote deep learning and active meaning making
- \* Reflect on their own teaching and learning to provide more opportunities for active meaning making and deep learning

ideally attending in school teams.**

## **Presenter: Tania Lattanzio**

Tania is an author and renowned international educator. Previously a teacher, coordinator, and manager with the International Baccalaureate, she is now Director of Innovative Global Education. Innovative Global Education has been established for over 10 years and in this time, Tania has worked as an educational consultant globally, in both local and international educational settings.

A key focus of Tania's work is developing and designing conceptual curriculum for schools. This work involves conceptualising curriculum across subject areas and year levels. This also involves equipping teachers with ideas and strategies to ensure that learning has a conceptual focus.

An advocate of inquiry, she works with educators to provide students with an education that is purposeful, meaningful, and relevant to their lives, where students have opportunities to be motivated and have agency and control of their learning.

A passionate educator, Tania works closely with educational institutions through supporting school reform and making significant shifts in pedagogy. Tania conducts professional learning for teachers and leadership, models pedagogy in classrooms, and works intensively with teaching teams, through mentoring and coaching. Tania has worked with schools and teachers from early childhood through to high school.
